PROFILE

Biomedical Engineering and Biotechnology (Honours) student at Swinburne, graduating in 2027, with five years of experience in Victorian public and private hospitals. I build practical tools to fix workflow problems, from Excel automation for patient data to vaccination compliance tracking. Interested in clinical engineering, health technology and medical devices, where good design meets real clinical workflows.

EDUCATION

Swinburne University of Technology, Melbourne, VIC

Expected 2027

Bachelor of Engineering (Honours) in Biomedical Engineering / Biotechnology

Final year split across 2026 and 2027.

SKILLS

Programming: Python, R, MATLAB, C, C#, Ruby, LabVIEW, VBA

Lab techniques: Gram staining, light microscopy, streak plating and aseptic technique, circuit prototyping (NI myDAQ)

Healthcare systems: iPM, Electronic Medical Record (EMR), Australian Immunisation Register (AIR), CVMS, OnePassport

Healthcare: Patient experience, patient liaison, patient data management, infection prevention and control compliance, queue management, confidentiality and privacy

Tools: Excel (incl. VBA automation), Git and GitHub, HTML and CSS, Word, PowerPoint, Adobe Suite

Professional: Communication, conflict resolution and de-escalation, problem-solving, teamwork, adaptability

EXPERIENCE

Epworth HealthCare, Richmond, VIC

Jan 2026 – Mar 2026

Ward Clerk

- Conducted patient experience surveys, checking in with patients on their preferences, comfort and wellbeing during their stay.
- Managed admissions, discharges and transfers using iPM within a private hospital's centralised systems.
- Booked patient ambulance transport through the Health Select booking system, coordinating transfers with ward staff.
- Maintained stock of medical record stationery and office supplies so clinical documentation was never delayed by shortages.

West Gippsland Healthcare Group, Warragul, VIC

Jan 2021 – Present

Infection Prevention & Control, Administrative Support

Sept 2024 – Present

- Streamlined vaccination record updates in the Australian Immunisation Register (AIR), reducing data entry errors.
- Developed Excel report forms and email lists to support staff vaccination updates in OnePassport, improving compliance tracking.

Emergency Department, Ward Clerk

June 2023 – Present

- Admit, discharge and transfer patients using iPM and the EMR across the Emergency Department and Short Stay Unit (up to 24 beds).
- Created Excel tools for data management, reducing the time needed to gather patient data.
- Liaise with triage nurses to help prioritise care and maintain a calm waiting room.
- Resolve hospital-wide admission errors and retrieve medical records during night shifts.

Vaccination Clinic, Ward Clerk

June 2021 – Dec 2022

- Managed queues of up to 500 patients a day at the Warragul Vaccination Clinic, reducing wait times by 25% through better workflow organisation.
- Screened patients, entered data into the COVID-19 Vaccination Management System (CVMS) and reviewed vaccine lists for errors.
- Taught myself the back end of CVMS to produce capacity and resource planning reports, improving staff utilisation and reducing vaccine wastage.
- De-escalated aggressive attendees and shared vaccination information, keeping the clinic calm.

COVID-19 Testing Clinic, Clinic Assistant

Jan 2021 – June 2022

- Managed queues and intake details for over 1,000 patients under Registered Nurse supervision, including swabbing and isolation advice.
- Joined the surge workforce for outbreaks across Gippsland, including Phillip Island, Wonthaggi and Lardner Park.

COVID-19 Screening & Reception

Jan 2021 – June 2022

- Conducted health and mask compliance checks for all visitors, contractors and staff, calmly managing tense situations.
- Organised medical record folders and prepared rapid antigen tests for the Emergency Department.

McDonald's, Drouin, VIC

Dec 2017 – Nov 2021

Line Cook

- Cooked and assembled orders on the line in a fast-paced team environment.
- Managed stock and carried out general store maintenance.

PROJECTS

Portfolio website, matthewfreriks.com

2026

- Designed, built and deployed my own site with HTML, CSS and Jekyll, hosted on GitHub Pages with a custom domain, DNS and email routing through Cloudflare.

Basic to Brilliant, science communication

2024 – Present

- Create explainer videos, a podcast and blog posts that make science and engineering accessible to non-experts.

LEADERSHIP & VOLUNTEERING

Secretary, Swinburne Engineering Student Society (SESS)

Current

Basketball Referee, Warragul & District Amateur Basketball Association

2014 – Present

Officiate games from under-10s to senior men's competitions, making fast, impartial decisions under pressure.

Basketball Coach, under-19s (2023) and under-10s (2018 – 2019)

2018 – 2023

Completed Basketball Victoria's accredited Club Coaching course (2017).

CERTIFICATIONS

First Aid, CPR & Immunisation Emergency Response

2022
